XCELLARISPRO - Hair Growth Kit

PRODUCT DETAILS

4x Hair Repair Ampules

4x Skin Rejuvenation Vitamin Ampules

1x Hair Lotion

HAIR REPAIR

Main Active Ingredients	Clinical Effects
Copper Peptide	Inhibition of 5 Alpha-Reductase (blocks formation of DHT in the area of hair follicles)
Zinc Sulfate	
Azelaic Acid	
Vitamin B6 (pyridoxine)	Normalization of sebum secretion, increased micro-circulation & cellular activity
Caffeine	Increases capillary microcirculation
Gluthation	Antioxidant

SKIN REJUVINATION VITAMIN

Main Active Ingredients	Clinical Effects
Hyaluronic Acid (Sodium Hyaluronate)	Scalp hydration, antioxidant
Complex of amino acids	The building blocks of keratin and other proteins in hair follicles
Complex of B Vitamins: B1, B2, B3, B5, B6, B9, B12 & Biotin	B-vitamins are on the best known vitamin group for hair loss. B vitamins help to: <ul style="list-style-type: none"> - Increase micro-circulation around hair follicles - Stimulate metabolic activity and turn fatty acids into usable energy - Biotin is thought to take active part in keratin development

HAIR LOTION

Main Active Ingredients	Clinical Effects
Azelaic acid, Zinc gluconate, Serenoa serrulata fruit extract, Salvia officinalis (sage) oil, Rosmarinus officinalis leaf extract	Inhibition formation of DHT by blocking 5 Alpha-Reductase
Diaminopyridine (analog to Minoxidil)	Inhibits DHT, normalizes blood flow and increases intake of nutrient by hair follicles
Vitamin C, Vitamin B6, Vitamin B3, Biotin	Antioxidants, increase cellular activity, increase micro-circulation
Ginseng extract	Prevents the apoptosis of dermal follicle papilla cells (prevents hair loss)
Grape seed oil	Antioxidant, keeps the scalp well-hydrated
Stinging Nettle (Urtica dioica)	Reduces inflammation, blocks DHT, antioxidant
